

# DAARUL QUR'AN INTERNATIONAL SCHOOL

## CHEMISTRY WEEKLY PLAN

### ACADEMIC YEAR 2008/2009

Class : 10 (Secondary 3/IGCSE)

Sem/Week : I/1 (4-9 August 2008)

No of Periods	Topic/Sub Topic	Objectives	Activity	Resources
2	The states of matter	By the end of the lesson, students should be able to: describe and explain diffusion and evidence for the movement of particles in gases and liquids	<ul style="list-style-type: none"><li>• Review studies about the interconversion between liquids, and gases in terms of the kinetic particle theory</li><li>• Explain about diffusion and evidence for the movement of particles in gases and liquids</li><li>• Giving problem to be solved</li></ul>	<ul style="list-style-type: none"><li>• Chemistry insights chapter 3</li></ul>
2	Elements and compounds	By the end of the lesson, students should be able to: define an element and compound, give the names and symbols of common elements, describe ways of classifying elements, describe the kinds of particles in elements and compounds, and describe the differences between elements, compounds, and mixtures.	<ul style="list-style-type: none"><li>• Review studies about the states of matter</li><li>• Explain about elements and compounds</li><li>• Giving problem to be solved</li></ul>	<ul style="list-style-type: none"><li>• Chemistry insights chapter 4</li></ul>
